

THE INVISIBLE REFERENCE-LEVEL AUDIO SYSTEM.

LOFTSONIC COMBINES THE SOUND OF THE FINEST
VISIBLE LOUDSPEAKER SYSTEMS WITH COMPLETE
FREEDOM IN THE CHOICE OF ARCHITECTURAL MATERIALS.

THE INTERIOR REMAINS VISUALLY UNINTERRUPTED.

Nothing in the interior reveals what is about to happen. Then the first note appears. A voice takes shape - clear, intimate and unmistakably present.

Music expands with scale, depth and precision. Cinema gains force, immediacy and physical presence. Nothing is visible. Everything is felt.

THE SURFACE MATERIAL BECOMES THE SOUND.

Natural stone. Ceramic. Wood. Metal. Drywall. Glass. LoftSonic is factory-integrated into the selected surface material. The architecture remains exactly as the designer intended - while the room itself becomes part of the immersive experience.

REFERENCE-LEVEL SOUND. COMPLETELY OUT OF SIGHT.

LoftSonic combines uncompromising sound with architectural perfection. Patented technology and precise factory integration preserve flawless surfaces while delivering reference-level dynamics, resolution and physical presence. For private clients, architects, interior designers and integrators who refuse to choose between uncompromising sound and uncompromising interior design.

REFERENCE-LEVEL SOUND THROUGHOUT THE HOME

LIVING ROOM

Music opens the room.

PRIVATE CINEMA

The image grows. The sound grows with it.

MASTER SUITE

Intimate, precise and completely unseen.

DINING & ENTERTAINING

An atmosphere created to be felt.

WHY LOFTSONIC

REFERENCE-LEVEL PRESENCE

Voices take shape. Music gains scale. Dynamics become physical.

COMPLETELY UNSEEN

No visible loudspeakers, grilles or material transitions.
The design remains entirely uninterrupted.

FACTORY-INTEGRATED

Precisely integrated into the selected surface material.

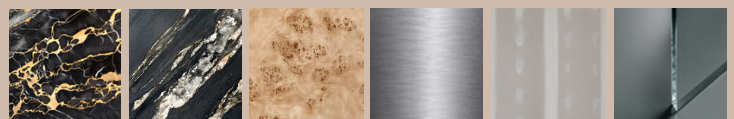

25 YEARS OF EXPERTISE

For 25 years, we have developed and manufactured invisible audio systems in Germany.

DESIGNED AROUND THE PROJECT

Coordinated with architecture, interior design and AV planning.

MATERIAL FREEDOM. DESIGN FREEDOM.

Natural
Stone

Ceramic

Wood

Metal

Drywall

Glass

Every interior has its own material language.

LoftSonic becomes part of it - precisely tailored to the material, the space and the intended experience.

PRIVATE DEMONSTRATIONS AT THE LOFTSONIC SHOWROOM FRANKFURT.

International project support for private clients, architects, interior designers,
high-end interior contractors and AV integrators.
